About
Healthcare professionals who prescribe controlled substances are invited to join us for a 3-day course. After participating in this CME activity, participants should be able to describe and discuss:

- The drug-seeking patient
- Chemical dependency using SBIRT (Screening, Brief Intervention, and Referral to Treatment)
- Risky prescribing practices of controlled substances
- Current information on proper prescribing practices of controlled substances
- Strategies to avoid risky prescribing behaviors
- Information on participant’s own state prescription drug monitoring program

Visit our website at [www.Caron.org/Prescribing-Course](http://www.Caron.org/Prescribing-Course) for more information and to register.
